

## BIBUS HYDRAULIK

**BIBUS HYDRAULIK** - One of the leading trading and service companies for hydraulic system solutions in Switzerland and Europe. From engineering, design, assembly, consulting, sales to service and maintenance, we offer a complete range of services in the field of hydraulics for both mobile and stationary applications.

We are looking for a responsible and independent employee to join our service and assembly department immediately or by arrangement as a

### **Service Mechanic 80 - 100 % (m/f)**

#### **What you can do**

- Repair and overhaul of hydraulic units in our repair workshop (100%)
- On-site service assignments at customer locations, including diagnostics and troubleshooting (as needed)
- Assembly of proportional valve stations (Danfoss PVG series) and components
- Monitoring and execution of test runs on our test benches
- Supporting the sales team
- Assisting in managing the spare parts warehouse

#### **What you bring with you**

- Completed vocational training as a Service Mechanic EFZ, agricultural mechanic, construction mechanic, or truck mechanic, or as a polymechanic specializing in assembly
- Expertise in hydraulics is preferred (or willingness to acquire it)
- IT skills (operational and MS Office applications)
- Valid category B driver's license
- Forklift license is a plus
- Languages: Proficient in German (spoken and written), knowledge of English is an advantage
- Reliable, independent, precise, and clean work habits

#### **Our advantages for you**

- You can expect diverse and interesting tasks with a high degree of responsibility and independence in a dynamic work environment.
- In addition to excellent social benefits and progressive working conditions (5 weeks of vacation, 42-hour workweek, bridge days, flexible hours, free parking, company events), we offer a modern workplace.
- We pride ourselves on transparent and straightforward business practices within a family-oriented company.

We enjoy a strong reputation in the industry. Get an insight into our exciting and diverse work at [www.bibushydraulik.ch](http://www.bibushydraulik.ch).

#### **Your contact**

Does this multifaceted challenge appeal to you? Then we look forward to receiving your detailed application documents with photo to Mrs Marisa D'Elia ([del@bibus.ch](mailto:del@bibus.ch)).

If you have any technical questions about the advertised position, please call Mr Reto Tschannen on +41 44 877 52 97 for further information.
